VOLUME 41 NO. 33

Authorized as second class mail,  
Post Office Department, Ottawa.

GLEICHEN, ALBERTA, WEDNESDAY OCTOBER 27, 1948

SUBSCRIPTION \$2.00 PER YEAR

## New Water System To Be Finished Within 60 Days

Work of installing the new waterworks system will start this week. The Adly Construction Co. of Ed. were awarded the contract last week and in a day or so will be in town to start work.

The contract calls for the work to be finished in sixty days, weather permitting. They will make the connections to the business firms and residences. The work will start at the Legion Hall corner and continue south until it crosses Crowfoot Street and will follow the south side of that street west. By doing this the contractors will on the opposite side of the street from the old mains and will not have to worry about hitting it.

Since all the water pipes, joints and connections and supplies are on hand there should be no delays and if the weather remains good contractors should be able to finish their work easily within the time limit.

The repairing of the water tower is not included in the contract. That will be left for a later date.

## READY FOR HALLOWE'EN

Hallowe'en is always a good excuse for a party. Children expect it and adults enjoy dressing in costume and being care-free for at least one evening.

For the homemaker, a party means preparing food and often the thought of the extra work entailed weighs her decision against entertaining. At Hallowe'en, because of the nature of the festivities, the refreshments may be very simple. Rosy apples, popcorn and cider are always part of the menu and may be all that is required but sandwiches, cookies or a plain cake are always welcomed.

Canapes (open faced sandwiches) are easy to make and the spread is decorative. Special for hallowe'en are rounds of bread cut with a large cookie cutter, spread with cheese and decorated to form the features of a Jack O'Lantern, with 'sweet green or red peppers, cloves and sliced stuffed olives. Other spreads are good but do not lend themselves so well to the color scheme. One of the following may appeal:

Meat or fish pastes garnished with pimiento, pickle or olives.

Peanut butter garnished with bacon curls, cherries or grapes.

Hard-cooked eggs (sliced or chopped) with salad dressing and garnished with green pepper, bacon, sardines or olives.

Sauteed or boiled mushroom caps. Cheese with half a marshmallow on top, toasted and served hot.

Plain spice or ginger cookies may be cut with fancy cutters making cats or witches, or plain round ones may have faces, made with raisins and orange peel.

A dark chocolate cake lends itself to such a party. The home economists of the Consumer Section, Dominion Department of Agriculture, recommend this economical one. It will not keep well but there is no need to worry about that as it will likely disappear very quickly. An orange icing may be used but the cake does not require it.

A government subsidy to promote civilian flying training has received approval and will be announced shortly from Ottawa. More generous than the prewar grant to flying clubs, this new program also will have a broader application to include commercial flying schools as well. Another new feature will be a direct cash payment to each flying graduate. Each flying club or school providing an approved course of air and ground instruction will receive \$100 for every student who passes the private flying license tests. In addition, the student will receive a cash subsidy with his license. The military significance of this program is indicated by the provisions of an extra bonus to each flying graduate if he (a) is 18-22 years of age; (b) can pass the RCAF aircrew medical; (c) is willing to sign up for the RCAF auxiliary or the permanent force. The Civil Aviation Division of the Department of Transport is working out a detailed plan of administration. When this is complete an order-in-council will authorize the program.

Wonder when the curling boys will finish the job of roofing and a lot of other things, the recreation centre. There is a lot of work to be done before the building looks shipshape.

## News Items of Local Interest

Quite a few members of the Gleichen United Church attended the fowl supper put on at Cluny by the members of the church one evening last week.

Howard Warner and Bunk Menard left on Sunday for Manyberries from there they will go into the Cypress Hills to shoot antelope. When they get back we will hear some good hunting stories.

Last Saturday evening the stores of Gleichen began their fall and winter schedule of hours by closing at six o'clock Saturday evenings. The stores will continue to close at six p.m. until next spring.

The United Church sale of home cooking, afternoon tea and bazaar will be held in the Legion Hall on Saturday afternoon October 30th.

The skating arena is already for ice making. This fall men and machines levelled off the ice area and it looks as smooth as a floor. The side walk at the front has been repaired and the worry of stubbed toes will be a thing of the past.

Mr. and Mrs. Elmer Bolinger left last week for visit to the United States. While they are away Mr. and Mrs. R. B. Hayes are looking after the residence.

B. Tustian of Manyberries, Alta., has been in town holidaying for the last week. While here he is the guests of Bob Brown and the two of them spend a lot of time hunting game birds.

Mr. and Mrs. A. Cameron, Miss Violet Cameron, Bob Cameron and Edward Warner returned home last weekend after spending a week in Jemain, Saskatchewan visiting relatives and friends.

Friday Ted Froggatt, Jack Lester, J. Taylor, B. Blaney, T. Brown and Ed. Elliott made themselves generally useful when they devoted a couple of hours cleaning up around the recreation centre and burning the weeds and grass that surrounded the place in great profusion. Geo. Bell, M.L.A., arrived on the scene about the time the boys were knocking off work and complimented them on the excellent job they had done.

Mrs. Hoey returned last week from Toronto where she has been for some months past visiting relatives. Mrs. Hoey says the west looks pretty good to her and likes it much better than eastern Canada. Since last fall she has called Calgary her home. While in town Mrs. Hoey is the guest of Mr. and Mrs. Thos. Bates.

During the past few days most of the fire hazards of the town have been wiped out. Several days last week men were busy burning off the high grass and weeds and now the town has a black look but the people have feeling of greater security against fires. The one great worry was that if a grass fire started on a windy day, from a careless smoker where would it end.

A recent survey shows a shortage in Canada for many kinds of builders hardware, and in order to complete residential dwellings on schedule it has been necessary to import supplies. Domestic production of large size butt hinges, and indoor and outdoor locksets continued at a high level, but in some areas output failed to keep abreast of the continued heavy demand. During the first half of 1948, the average monthly production of builders' hardware was close to half a million dollars, an improvement of better than 20 per cent over the average monthly output of a year ago.

Alberta's car registrations for this year already have hit record levels and are continuing to climb. Consequently the revenue from this fruitful source will be greater than ever for the provincial government's treasury. For six months ended September 30, the total number of passenger car licenses issued was 107,311. This was a gain of 8,927 over the same period in 1947, which in itself was a record year. Many new cars are on the highways, serving to boost the registration total, while tourist motoring also has been a prime factor. This year, Alberta probably will have 200,000 licensed

car drivers. Up to the end of September, the total was 191,259, as against 178,581 in the similar period of last year. It is expected that by the end of the present license year March 31, 1949, Alberta will hold a topmost place among provinces which have made outstanding gains in car registrations. There are good prospects that this year's total even will be exceeded in 1949, with a greatly increased holiday and tourist movement expected and many more motor vehicles on the highways. With car licenses continuing to mount, there is every need of carrying on highway improvements designed to meet all demands and to build roads of a high standard which will appeal to motorists, whether they live in Alberta or come here in touring vehicles.

Monday evening the Legion, twice a month card party got under way. Bridge, whist and cribbage are the games being played and at the end of the season, which will be sometime next spring substantial prizes will be given the winners. There was a very good turnout Monday evening and Manager S. Hampton certainly knows how to keep things moving. He has installed score boards at the front end of the hall and anyone will be able to see what the score is at any time during the season. After most of the card players had left Monday evening Cliff Kilcup and Stuart Hampton sang some solos to the delight of those fortunate to be in the hall. It might be added that it does not pay to be in a hurry to get home after the lunch has been served.

The last regular meeting of the U. F. W. A. was held at the home of Mrs. F. Sammons when twenty members responded to the roll call. Mrs. MacArthur and Mrs. H. Burne were appointed delegates to attend the convention in Calgary. All members received tickets to sell for satin quilt which will be raffled at the dance to be held on October 29th. There were six grandmothers present for the Grandmothers Day program which was led by Mrs. MacArthur. After the program the meeting was adjourned and a dainty lunch was served by the lunch committee. The next meeting will be held at the residence of Mrs. R. Cunningham and the lunch committee will be Mrs. G. Chart and Mrs. J. Hutcheson, Mrs. MacArthur and Mrs. L. Koefoed.

## Wheat Pool's 25th Anniversary

Twenty-five years ago October 29, 1923, the Alberta Wheat Pool started in business. On that date an office was opened in the Lougheed Building in Calgary with a staff of about 15 people. From that small beginning this farmer owned co-operative grain handling organization has developed into the largest Alberta business. Its assets include 487 country elevators, a 5,150,000 bushel terminal at Vancouver and a 2,000,000 bushel terminal at Port Arthur. It has handled as much as 52,000,000 bushels of grain in a single year, and has had a yearly cash turnover in excess of \$60,000,000. It has branch offices in Edmonton, Vancouver and Winnipeg, and the average number of employees is around 770.

The formation of the Alberta Wheat Pool in 1923 grew out of the experience of Western Canadian farmers with the federal government's participation in wheat marketing during and immediately after World War I. The Canadian Wheat Board was dropped on August 16, 1920, and shortly afterwards a price decline set in which continued until December, 1923, when wheat reached a low point of 93 3/4¢ a bushel.

The farmers tried to get the government to re-establish a Wheat Board. Failing in that effort, they turned their energies towards the building up of a voluntary wheat pool. Alberta was the first province to complete a Wheat Pool organiza-

tion. On September 5, 1923, over 28,000 farmers had signed contracts to deliver their wheat to the Alberta Wheat Pool. The following year Wheat Pools were organized in Saskatchewan and Manitoba. The combined physical assets of the three Pools now include some 1,875 country elevators and eight terminals, with a total capacity over-all of 130,000,000 bushels of grain and a total value in excess of \$50,000,000.

One of the principle objectives of the Wheat Pool movement is price security for farmers. In this regard, in preference to the open market system with its booms and depressions, the men who organized the Pool sought to obtain, over the years, an average price for wheat which would have a reasonable relationship to cost of production.

Another objective was the establishment of a co-operative elevator system operated primarily for service and not for profit. The Alberta Wheat Pool has retained the confidence and support of many thousands of Alberta farmers. In the past quarter of a century it has handled a total of over a billion bushels of grain with a gross value in excess of \$925,000,000. It has paid patronage dividends in cash totalling \$3,724,004 and in reserves of over \$3,000,000. Further more, it has redeemed reserve contributions of original members to a total of \$4,468,000.

"It has been our policy to operate this enterprise along the lines of pure co-operation", says R. D. Purdy, manager of the Alberta Wheat Pool. "We believe sincerely in the principle of co-operation and in its effectiveness on behalf of the grain growers. Nothing can take its place in the provisions of security and preservation of hardwon rights and privileges."

His name may be George Wilson, Patrick O'Reilly or Emile Legault. He may be a farmer, a lawyer, a carpenter, a real estate agent, a banker, a teacher or one of our own employees. His wife or mother might be a shareholder. He and about 5,000 other Canadians from all walks of life are the owners of Dominion Textile Company Limited. Last year, among them, they did \$57,838,394 worth of business. That was the company's total income for the year.

Let's simplify it and say each Average Shareholder did \$11,567.67 worth of business. That was the money he took in. Now let's look at what he spent to get that money. Here it is, roughly calculated, for the average shareholder.

Raw materials (principally raw cotton).....	\$5,700.00
Starches, chemicals, dyes, packing cases, other supplies and operating expenses such as repairs, fuel, power, light, postage, insurance and other such items.....	\$8,104.00
Amount paid to employees.....	\$2,689.16
Taxes.....	\$ 497.01
Money re-invested to keep the business in a stable condition.....	\$ 178.01
Net profit received by Mr. Average Shareholder (on which he pays personal taxes too).....	\$ 398.96

## An English Journey

By Walter Legge representing the Canadian Weekly Newspapers Association.

Bournemouth which was the next base for a week is one of the finest resorts in England and was very popular with Canadians during the war, especially those in the airforce who

spent their first days there after going overseas. Bournemouth is a delightful modern city of large hotels, parks and a fine beach, although there are ancient landmarks in the vicinity, and there are daily bus trips to a large number of interesting places as well as steamer trips to the Isle of Wight.

Only five miles away is Christchurch where there is a famous priory and the remains of a Norman castle. A great many of the old Abbots have interesting legends about how the location was chosen or how it was built. Christchurch priory has one of the legends which relates that it was the intention of the early builders to erect the church on a spot at St. Catherine's Hill, north of the town. Each night however, the monks xibod/holtw etoain a hrdm to the present site, so it was decided to abandon the first chosen spot and build it where the materials were placed. That this was in accordance with God's will was indicated because each day there was an extra workman who was never seen to partake of meals or draw wages. One day some workmen made a mistake and cut a heavy beam too short for its intended purpose, but the next day it was found to have been miraculously lengthened. The builders then realized that the mysterious stranger was none other than the Carpenter of Nazareth.

A huge beam which is claimed to be that which was miraculously lengthened is still displayed in the Retro choir.

However, it is more probable that the site was occupied by a pagan temple and this has been confirmed excavations. The Doomsday Book (1086) records that there was a church on the site at that time which was destroyed and the present structure commenced in 1093. It was made a priory in 1150 and the present building was completed within the next two hundred years.

It is one of the largest and finest ecclesiastical buildings in England, being of cathedral proportions and filled with remarkable carvings and memorials. At the entrance of the priory is a car bearing the following words: Pause as thou enter, traveller and behold thee

How holy, yet how homelike is this place,  
Time that thou spendest humbly here shall link thee  
With men unknown, who once were of thy race.  
This is thy Father's House, to Him address thee  
When here His children worship face to face,  
He, at thy coming in, with peace will bless thee,  
Thy going out make joyful with His Grace.

The churchyard is noted for several quaint epitaphs, the most intriguing being one known as the "Puzzle Epitaph" which reads as follows:

We were not always but rayed  
Ray'd not to life  
But to be buried twice  
By men of strife  
What rest could living have  
When dead had none  
Agree amongst you  
Hence we ten are one  
Hm. Rogers died Apr. 17, 1841.

Among the many outstanding features of Christchurch Priory are the choir stalls which have some of the finest carved detail in England. Some of them are obviously contemporary carvings of such personages as Henry VIII, Catherine of Aragon, Anne Boleyn and others.

(To be continued.)

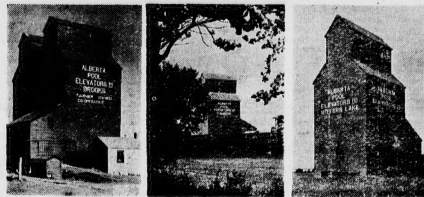

## LOCAL AND GENERAL

Alex Murray has sold his house to Mr. Herd, proprietor of Herds store. With his wife and family Alex now resides in a house on the Indian Reserve near the Indian agency where he is employed.

Special railway fares to Toronto for the Royal Agricultural Winter Fair, November 10th to 24th, have been announced by Mr. A. A. Powers, Vice-Chairman, Canadian Passenger Association, Winnipeg. These fares will be on the basis of the one-way fare and one-third for the round trip, and will be on sale from all stations in Alberta from November 8th to 16th, with the return from Toronto until November 25, 1943. Tickets will be good in coaches and in tourist and standard sleeping cars on payment of the usual rates.

ALBERTA WHEAT POOL'S  
Silver Anniversary

"THREE OF 487 POOL COUNTRY ELEVATORS"

The Alberta Wheat Pool started in business on October 27, 1923. Its first office was staffed with only 15 employees, and furnished with second-hand equipment.

Today the Alberta Wheat Pool is the largest Alberta business. Its assets include 487 country elevators and two terminals with a total grain capacity of 37,000,000 bushels.

The Alberta Wheat Pool has paid patronage dividends, over the years, to a total of \$3,724,180.15 in cash and has redeemed reserves from original Pool members to a total of \$4,468,983.85.

Alberta Pool Elevators has provided excellent service to patrons and has gained a high reputation for fair dealing. The system has handled as much as 52,000,000 bushels of grain in a single year.

All these, and many other accomplishments, have been achieved by the Wheat Pool members, who have rendered such loyal and devoted service to their own organization over a quarter of a century.

Nothing can take the place of this farmer-owned co-operative in providing security and the preservation of hard-won rights and privileges for the grain producers of this province.

"Make this year a Pool elevator year."

Alberta Pool Elevators

The  
RCAF

will train you to become  
an expert technician

In the post-war R.C.A.F. there are many trades which provide ample scope for the ambitious young Canadian to prepare himself for a progressive future in the technical, radio, or clerical fields.

This is the day when the men with special skill and training have the advantage over the other fellow.

The R.C.A.F. offers you just the training and opportunity you are looking for.

## EARN WHILE YOU LEARN

Rates of pay in the R.C.A.F. have been increased and you can add to your monthly income by improving your trade proficiency and by promotion to higher rank.

- Technical trade training.
- Full opportunity for advancement.
- Progressive pay increases.
- Provision for religious welfare.
- Medical and dental care.
- Sports and recreational facilities.
- 30 days vacation a year with full pay.
- Clothing provided.
- Retirement income assured.

YOU GET ALL THESE  
IN THE RCAF

and remember... the R.C.A.F. offers you continuous employment and pay.
